SUMMARY

I am a creative technologist who loves turning ideas into meaningful digital experiences. My journey started with art, photography, and design, and eventually led me into front-end development and UI/UX. What makes me different is that I approach technology with an artist's mindset—focusing not only on how things work, but also on how they feel for the people using them.

2026

EXPERIENCE:

UI/UX LEAD — GOOGLE DEVELOPER GROUPS ON CAMPUS 2024 University of Saint La Salle

- Collaborated with developers and creatives to create intuitive digital experiences.
- Helped foster a stronger design culture within the organization.

FRONT-END DEVELOPER & UI/UX DESIGNER — FREELANCE & PROJECT-BASED 2023 - PRESENT

UMAHAN — Farmer Support Application

- Designed a culturally localized agricultural marketplace that helps farmers connect directly with buyers. Built with accessibility and simplicity in mind, using Hiligaynon to better serve local communities.

BAZARIO — Event & Commerce Platform

- Created the UI/UX for a dual-platform system supporting event organizers and MSMEs, including merchant management, inventory tracking, and analytics dashboards.

SOCIAL MEDIA MANAGER & CONTENT CREATOR PROJECT-BASED 2024 - PRESENT

- Grew the brand to 1.9M+ Instagram impressions through strategic content creation.
- Produced photography, video, and graphic content for audience engagement.

CREATIVE SPECIALIST — SELF-EMPLOYED 2024 - PRESENT

- Fashion and commercial modeling
- Acting for music videos, advertisements, and film projects
- Photography and creative direction
- Graphic design and video production

INTERNSHIP — CENTER FOR MARKETING & COMMUNICATIONS 2026 University of Saint La Salle

- Supported web development and digital campaigns.
- Assisted in content production and project coordination.
- Worked with university stakeholders on creative and technical initiatives.
